Preface

Geotechnical Frontiers 2017 was held in Orlando, FL, on March 12-15. It is the third conference co-sponsored by the Industrial Fabrics Association International (IFAI) and the American Society of Civil Engineers' Geo-Institute (G-I). Other supporting organizations are acknowledged below.

The conference includes topics which illustrate that our understanding of traditional subjects, such as the physical properties of soils, the stability of slopes, the details of mechanically-stabilized earth, the design of roadways and the efficacies of geosynthetics remains far from complete. It also includes topics that reflect the dynamic and evolving nature of our industry, such as thermal properties of soils, energy geostructures, coastal engineering and measures to process coal combustion residuals.

The conference was organized with eight concurrent technical sessions over a period of three days. Most sessions are 90-minutes-long, and ideally, contain five to six presentations. These constraints limited the total number of slots that are available for paper presentations, and consequently, the total number of papers that can included in the proceedings. This is because, according to the conference rules, a paper must be presented in order to be published in the proceedings.

We received 893 abstracts for the conference. Each abstract was reviewed by the two technical session co-chairs and by at least one of the conference technical co-chairs. Of the 689 abstracts that were accepted, 583 resulted in draft manuscript submittals. Each manuscript received at least two reviews. At the end of this process, 361 manuscripts were recommended for publication in the six volumes of these proceedings. Unfortunately, the limited number of presentation slots made it necessary to decline many fine papers. We encourage the authors to submit at other venues.

Geotechnical Frontiers is also the venue for special presentations of invited and award lectures. Prof. Kerry Rowe presented the Terzaghi Lecture, Prof. Vaughan Griffiths presented the Seed Lecture, and Prof. Ning Lu presented the Peck Lecture. The inaugural Robert. M. Koerner Award and Lecture debuted at this conference and George Koerner was the speaker. There was also a special honorary symposium in recognition of the distinguished career and countless contributions of Professor Mike Duncan.

Thomas L. Brandon and Richard J. Valentine, Editors
Barbara J. Connett, Secretary General

Conference Organizing Committee

The conference organizing committee started planning in March, 2015. The individuals listed below have been actively involved in the planning and production of the conference.

Program Committee Co-Chairs
Elizabeth Dwyre, PE, DGE, Parsons Brinckerhoff, Inc.
Jorge Zornberg, PhD, PE, University of Texas at Austin

Secretary General / Event Manager
Barbara Connett, IFAI

Technical Program Co-Chairs
Thomas L. Brandon, PhD, PE, Virginia Tech
Richard J. Valentine, PE, Valentine Engineering Associates, Inc.

Conference Advisors
Jie Han, PhD, PE, University of Kansas
Robert Mackey, PE, S2L, Inc.

Exhibit Chair
Jennifer McKay, TenCate Geosynthetics

Short Course Chair
L. David Suits, North American Geosynthetics Society

Student Activities Chair
Aaron Budge, PhD, PE, GE, Minnesota State University

Student Programs Project Manager
Ashleigh Esselman, IFAI

Geo- Institute
Brad Keelor
Helen Cook

Additional Organizational Assistance

Many professional organizations contributed to the many components necessary to hold a conference like Geotechnical Frontiers 2017. These are listed below.

Supporting Organizations

Academy of Geo-Professionals (AGP)
International Association of Foundation Drilling (ADSC)
Association of Environmental and Engineering Geologists (AEG)

© ASCE

Association for Metallically Stabilized Earth (AMSE)
American Society of Civil Engineers – FL Section East Central Branch Geo-Institute (ASCE FL)
ASTM International (ASTM)
Bombay Textile Research Association (BTRA)
Business Co-ordination House (BCH)
Canadian Geotechnical Society (CGS)
Deep Foundations Institute (DFI)
Erosion Control Technology Council (ECTC)
Fabricated Geomembrane Institute (FGI)
Federal Highway Administration (FHWA)
GeoProfessional Business Association (GBA)
Geosynthetic Institute (GSI)
International Association of Geosynthetic Installers (IAGI)
The Nonwovens Institute (NWI)
Pile Driving Contractors Association (PDCA)
Transportation Research Board (TRB)
United States Universities Council on Geotechnical Education and Research (USUCGER)

Supported by
North American chapter of the International Geosynthetics Society (IGS-NA)

Under the Auspices of
International Geosynthetics Society (IGS)

Supporting Media
GeoChannel
geoengineer.org
GEOSTRATA magazine
Geosynthetics magazine
Pile Buck magazine
TechTex India

Session Co-Chairs and Paper Reviewers

Papers were reviewed by the technical session co-chairs and by a generous donation of time from volunteer reviewers. These individuals are listed below:

Technical Session Co-Chairs

Aaron Budge
Aaron Goldberg
Adrian Rodriguez-Marek
Alec Marshall
Alejandro Martinez
Allen Cadden
Amr Morsy
Angel Palomino
Anne Lemnitzer
Antonio Carraro
Arvin Farid
Ashley MacMillan
Ashly Cabas-Mijares
Assaf Klar
Beena Ajmera
Ben Leshchinsky

Contents

Geosynthetics in Waste Containment Facilities

Performance of Blended Polyolefin Geomembrane in Various Incubation Media Based on Std-OIT....1
Mohamed S. Morsy and R. Kerry Rowe

Laboratory Study of Geosynthetic Clay Liner Panel Shrinkage Forces and Seam Strength....11
John M. Allen, Julio A. Z. Ferreira, and Chris Athanassopoulos

Long-Term Performance of HDPE Geomembranes Exposed to High Service Temperature....22
Andrew Mills and David Beaumier

Automation of Large-Scale Geotextile and Geomembrane Fabrication....32
Andrew Mills and Naeem Yassin

Comparison of Single and Multi-Layer Interface Strengths for Geosynthetic/Geosynthetic and Soil/Geosynthetic Interfaces....42
Kris Khilnani, Timothy D. Stark, and Taj M. Bahadori

Numerical Modeling of the Shear Response of a Composite Liner System with Municipal Solid Waste Degradation in Landfills....52
Krishna R. Reddy, Girish Kumar, and Rajiv K. Giri

Protection Geotextiles for Geomembranes in Landfill Applications....64
Henning Ehrenberg and Kent P. von Maubeuge

Capping a Low Strength Waste Sludge Lagoon In-Place without Solidification....77
David T. Farber and Phil Comstock

Sorption and Transport of Benzene through Organoclay Amended Geosynthetic Clay Liners (GCL)....86
Sadra Javadi, Mohammad Ghavami, and Qian Zhao

Geomembrane Cracking and Final Cover Performance....97
Kevin Foye and Te-Yang Soong

© ASCE

Study of the Parameters Controlling Nanoparticle Dispersion for Nanocomposite Geomembrane Applications 107
Patricia I. Dolez, Marek Weltrowski, and Eric David

Comparing the Testing of Geosynthetic Clay Liners (GCLs) with Bentonite Powder and Granular Cores 117
K. V. Maubeuge, A. Müller-Kirchenbauer, and C. Schlötzer

Alternative Final Covers

The Critical Role of Lateral Drainage Capacity in Limiting Leakage through a Low Permeability Geomembrane Cover 127
Greg Meiers and Cody Bradley

The Durability of Exposed Geomembrane Covers.....139
George R. Koerner and Robert M. Koerner

Liner Performance: Interesting Observations and Test Results.....148
Ian D. Peggs

The Viability of Using the Mixtures of Mine Tailings and Waste Rock in Water Balance Covers.....160
Mohammad R. H. Gorakhki and Christopher A. Bareither

Combined Seepage and Slope Stability Analysis of a Landfill Cover System 170
Sid Nadukuru, Ming Zhu, Cuneyt Gokmen, and Rudolph Bonaparte

Bentonite Barrier Materials

Effect of an Anion Ratio on the Hydraulic Conductivity of a Bentonite-Polymer Geosynthetic Clay Liner 180
Kuo Tian, Craig H. Benson, and William J. Likos

Compatibility of Phosphate-Amended Ca-Bentonite Soil Backfill with Groundwater Impacted by Coal Ash Leachate 190
Yu-Ling Yang, Yan-Jun Du, Krishna R. Reddy, and Ri-Dong Fan

Diffusion of Calcium Chloride through Polymerized Bentonite 200
Kristin M. Sample-Lord, Gretchen L. Bohnhoff, and Shan Tong

Water Vapor Sorption of Bentonite-Polymer Mixtures Contacted with Aggressive Leachates.....209
Idil Deniz Akin, Jiannan Chen, William J. Likos, and Craig H. Benson
