Preface

This is the second Geotechnical Special Publication of the proceedings of Grouting 2017, the Fifth International Conference on Grouting, Deep Mixing, and Diaphragm Walls held in Honolulu Hawaii, U.S.A. July 9-12, 2017. Grouting 2017 is the fifth in a series of international conferences that began in 1982 to advance the science and technology of grouting, and these proceedings represent a five-year update from the previous conference in 2012 New Orleans.

The three GSPs of these proceedings capture 1) advances in the technology of materials, instrumentation, control, and the basic science of grouting, deep mixing and diaphragm walls that will lead to new and deeper understanding, new applications, and directions for the future; 2) exciting new information on Grouting and Deep Mixing practices for monitoring and instrumentation technology that is becoming the new normal for these technologies throughout the world; and 3) new integration of multiple technologies for diaphragm wall construction and remediation.

GSP 288 focuses on Grouting, Drilling, and Verification with papers encompassing nearly every aspect of grouting: design and assessment, construction, verification, quality assurance and control, and innovation in laboratory and field studies. Also included are papers exploring developing techniques such as bio-based grouting and best practices for challenging conditions such as extreme temperatures. Mr. Peter Bowman assisted in handling some of the papers in these sessions and his assistance is greatly appreciated.

These proceedings have been produced thanks to international support of numerous organizations and individuals, including the: ASCE, Geo-Institute of ASCE, US DOT FHWA, Deep Foundations Institute, and International Conference Organization for Grouting (ICOG). This publication culminates two years of effort by the planning committee whose focus has been to continue the vision established in the initial conference chaired by Wallace Hayward Baker and to keep the proceedings of this conference as the definitive source of information on the cutting edge of grouting and related technologies. Many individuals are responsible for the content of this volume, all of whom served in the efforts to maintain the standard set by previous proceedings. Papers were reviewed in accordance with ASCE GSP standards. Accordingly, each paper was subjected to technical review by two or more independent peer reviewers. Publication requires concurrence by at least two peer reviewers.

The previous four conferences held in 1982, 1992, 2003, and 2012 were organized by the Grouting Committee of the ASCE/Geo-Institute and ICOG. ICOG is an independent organization that arose from the Grouting Committee of the Geo-Institute with the purpose of promoting the continuing growth of the understanding and use of geotechnical grouting. ICOG has worked closely with the Geo-Institute in the organization of this conference and preparation of these proceedings.

Acknowledgments

The success of The Fifth International Conference on Grouting depended on numerous individuals as well as the legacy of this series of international grouting conferences, all of which have been organized by the Geo-Institute of ASCE's Grouting Technical Committee. The first international conference in 1982 was the brainchild of Wally Baker.

Thanks are due to the authors, reviewers, program committee, technical advisory committee, session chairs, moderators, sponsors, exhibitors, attendees and the ASCE conference organizing committee, notably Helen Cook and Brad Keelor.

Grouting 2017 Program Committee

Conference Chair: Michael J. Byle, P.E., D.GE, F.ASCE; Tetra Tech, Inc.
Conference Co-Chair: Lawrence F. Johnsen, P.E., D.GE, M.ASCE; GZA GeoEnvironmental, Inc.
Conference Co-Chair: Paolo Gazzarrini, P.Eng, M.ASCE; Sea to Sky Geotech Inc.
Conference Co-Chair and Workshops Co-Chair: Donald A. Bruce, Ph.D., D.GE, M.ASCE; Geosystems L.P.
Technical Program Co-Chair: Allen Cadden, P.E., D.GE, F.ASCE; Schnabel Engineering

Committee Members
Samson W. Bandimere, Aff.M.ASCE; Bandimere Grouting Consulting Services
Michael J. Miluski, P.E., M.ASCE; Compaction Grouting Services, Inc.
George K. Burke, P.E., D.GE, M.ASCE; Hayward Baker, Inc.
Joe Harris, Aff.M.ASCE; Hayward Baker, Inc.
Steve C. Maranowski, A.M.ASCE; Spartan Specialties Ltd.
Daniel Bole, A.M.ASCE; Hayward Baker, Inc.
Thomas D. Richards, Jr., P.E., D.GE, M.ASCE; Nicholson Construction Company
Justice J. Maswoswe, Ph.D., P.E., M.ASCE; FHWA Resource Center
Cumaraswamy "Vipu" Vipulanandan, Ph.D., P.E., M.ASCE; University of Houston
Chadi El Mohtar, Ph.D., A.M.ASCE; University of Texas at Austin
Reyn Shyo Hashiro, P.E., M.ASCE; Yogi Kwong Engineering LLC
Francis B. Gularte, M.ASCE; Hayward Baker, Inc.
James Warner, F.ASCE; Independent Consultant

Technical Advisory Committee
Australia — Ernst Friedlaender, *Keller Ground Engineering Pty Ltd*
Austria — Professor Scott Kieffer, *Graz University of Technology*
Brazil — Arsenio Negro, *Bureau de Projetos*
Canada —Paolo Gazzarrini, *Sea to Sky Geotech Inc.*
Italy — Giuseppe A. Modoni, *University of Cassino*
Japan — Masaaki Terashi, *Independent Consultant*
Morocco — Ahmed F. Chraibi, *DAMTECH*

Poland — Michal Topolnicki, *Keller Polska*
Sweden — Ulf Bertil Hakansson, *Skanska AB*
Sweden — Goran Hol, *Swedish Geotechnical Institute*
Switzerland — Katterbach Maren, *Lombardi Consulting Engineers Ltd.*
Thailand — Dennes T. Bergado, *Asian Institute of Technology*
United Kingdom — Stephan Jefferis, *Environmental Geotechnics Limited, University of Oxford St. Mary's Grove*
United Kingdom — Clif Kettle, *Bachy Soletanche Limited*
USA — Jie Han, *University of Kansas*

Grouting 2017 Session Chairs

TRACK 1/ Diaphragm Walls
1A0/ Design and Assessment
1B0/ Construction and Innovation
1C0/ Verification, QA/QC
1D0/ Case Histories
- Thomas D. Richards, Jr., P.E., D.GE, M.ASCE, *Nicholson Construction Company*

TRACK 2/ Deep Mixing
2A0/ Design and Assessment
2B0/ Construction and Innovation
2C0/ Verification, QA/QC
2D0/ Case Histories
- Donald A. Bruce, Ph.D., D.GE, M.ASCE; *Geosystems L.P.*

TRACK 3/ Drilling and Grouting
3A0/ Design and Assessment
- Chadi El Mohtar, Ph.D., A.M.ASCE, *University of Texas at Austin*
- Lisheng Shao, Ph.D., P.E., G.E., M.ASCE, *Hayward Baker Inc.*

3B0/ Construction and Innovation
3B1/ Bio-Treatment
- Chadi El Mohtar, Ph.D., A.M.ASCE, *University of Texas at Austin*

3C0/ Verification, QA/QC
- Michael J. Miluski, P.E., M.ASCE; *Compaction Grouting Services, Inc.*

3D1/ Case Histories: Karst
- Michael J. Byle, P.E., D.GE, F.ASCE; *Tetra Tech, Inc.*

3D2/ Case Histories: Piles and Anchors
- Peter Bowman, *Advanced Construction Techniques Ltd.*

3D3/ Case Histories: Jet Grouting
- Paolo Gazzarrini, P.Eng, M.ASCE; Sea to Sky Geotech Inc.

Contents

Bio-Treatment

Bio-Grout Materials: A Review.....1
T. Hamed Khodadadi, Edward Kavazanjian,
Leon van Paassen, and Jason DeJong

Bio-Inspired Soil Improvement Using EICP Soil Columns and Soil Nails 13
Edward Kavazanjian, Abdullah Almajed, and Nasser Hamdan

Engineering Properties of Bio-Cementation Improved Sandy Soils.....23
Michael G. Gomez and Jason T. DeJong

Modeling Bio-Cemented Sands: Shear Strength and Stiffness with Degradation 34
Chukwuebuka C. Nweke and Juan M. Pestana

Construction and Innovation

Commercial Considerations for Contemporary Geotechnical Grouting Projects.....46
James Cockburn and Donald A. Bruce

Implementation of MWD-Data for Grouting Purposes in a Large Infrastructure Project—The Stockholm Bypass 61
Magnus Zetterlund, Lars Martinsson, and Thomas Dalmalm

Overcoming the Challenges of Grouting Ultra-High Capacity Dam Anchors in Jointed Quarzitic Sandstone 71
Devon Mothersille

Recent Advances in Overburden and Down-the-Hole Drilling Techniques.....82
Donald A. Bruce and Rudy Lyon

Soil Improvement Thanks to an Extra-Long Application of Directional Drilling.....92
Giuseppe Di Salvo, Vittorio Manassero, Giuseppe Sichel,
and Paolo Foppiani

Design and Assessment

Application of Low-Frequency Rectangular Pressure Impulse in Rock Grouting.....104
A. N. Ghafar, S. Sadrizadeh, A. Draganovic, F. Johansson, U. Håkansson, and S. Larsson

Demand-Assessed Grouting—Hydrogeologically Based Methodology 114
Peter Wilén, Sara Kvartsberg, and Magnus Zetterlund

Evaluation of Durability and Waterproofing Characteristic of Cast-in-Place Piles Using Surfactant Grout at the Field Tests.....124
Juhyung Lee, Jinung Do, Hakseung Kim, and Bonggeun Park

Grouting and Quality Control for Micropiles and Anchors in Karst Geology.....133
Tim Adkins, Adam C. Alexander, R. Michael Bivens, Ken Bowman, and Bill King

How the Pressure Build-Up Affects the Penetration Length of Grout-New Formulation of Radial Flow of Grout Incorporating Variable Pressure.....143
Johan Funehag and Johan Claesson

Introducing a New Method for Measuring Internal Stability of Microfine Cement Grouts 152
Chadi S. El Mohtar, Anna Kate Miller, and Hamza A. Jaffal

Practical Aspects of Water Pressure Testing for Rock Grouting 163
Adam Paisley, Jesse Wullenwaber, and Donald A. Bruce

Pressure Distribution of TAM Grouting under a Deep Excavation in Silty Soil 175
Hung-Jiun Liao, Shih-Hao Cheng, Sin-Lan Lu, Chin-Lung Chiu, and Ricky K. N. Wong

Statistical Evaluation of Groutability Using Data from Hydraulic Tests and Fracture Mapping Case Studies from Sweden 185
Edward Runslätt, Johan Thörn, Åsa Fransson, and Sara Kvartsberg

Unified Design Approach for Rock Fissure Grouting—Best Design Practice for Pre-Grouting of Rock Tunnels in Sweden.....196
Mikael Creütz, Magnus Zetterlund, Magnus Eriksson, Thomas Janson, and Thomas Dalmalm

Extreme Conditions

Grouting and Jet Grouting for Soil and Rock Impermeabilization under Extreme Conditions at the Diavik Diamond Mine's A21 Project: The Point of View of the Contractor 207
Piero Roberti and Albert Hartmann

Drilling and Grouting Challenges in Broadly Graded Soils 217
Michael J. Byle

Drilling and Grouting to Allow Excavation Works in a Challenge Ground Condition 228
Raffaella Granata and Fabrizio Leoni

A Novel Blend of Karst Grouting and Micropile Placement Techniques for Stabilizing Difficult Foundation Conditions in Weak Vuggy Limestone 238
T. G. Carter, D. A. Bruce, J. R. Wolosick, J. P. Dittrich, B. J. A. Leew, and R. T. Smith

Settlement Control Meets Flood Control—Hybrid Compaction Grouted Ground Anchors for NYU Langone Medical Center's Kimmel Pavilion 250
Saul Shapiro, Anthony Cennamo, and John Stanbury

Laboratory Investigation

Effect of Compressive Strength on Grouted Sand Column and Compacted Cylindrical Specimen 260
M. Muttharam, N. Kabilan, and V. Samidurai

Evaluation of Unconfined Compressive Strength for High Plasticity Clayey Soil Mixed with Cement and Dispersive Agents 270
Yuksel Yilmaz, Jongwan Eun, and Aysegul Goren

A Filtration Model for Constant Flux Permeation of Bentonite Grout through Granular Soil 280
Ritika Sangroya and Chadi El Mohtar

A Laboratory Investigation into Time-Pressure Curves for Stable versus Unstable Grouts 290
Hamza A. Jaffal, Ritika Sangroya, Anna Kate Miller, and Chadi S. El Mohtar

Quantifying the Effectiveness of a Grout Curtain Using a Laboratory-Scale Physical Model 301
L. Sebastian Bryson and Elliot N. Magoto

Verification, QA/QC

Advances in Measuring Grouting Pressures Using an Instrumented Packer 313
Dmitri Ivanov, Doug Horvath, and Douglas M. Heenan

Combining Automatic Monitoring of Grouting Performance Parameters and Geotechnical Instrumentation for Risk Reduction in Complex Grouting Projects 323
Pierre Choquet and Robert M. Taylor

Grouting for Karst Risk Reduction Based on Geophysical Investigation Methods 336
R. Michael Bivens and Michael J. Wightman

Inconsistencies and Improvements in HMG Testing and Reporting 349
Thomas D. Richards

In-Line Determination of Cement-Based Grout Properties Using a Pulsed Ultrasound Based Method and System 356
Ulf Håkansson, Johan Wiklund, and Michal Kotzé

Monitoring and Instrumentation Best Practice 368
James Warner

Real Time Measurement of Flow Properties and the Design of Cement Grouting 379
Mashuqur Rahman and Ulf Håkansson

A Retrospective Evaluation of the Progress of Computer Monitored Grouting 389
T. G. Carter, M. G. Jefferies, V. Rombough, L. Hassler, and R. Granata

Issues in Measurements and Evaluation of Penetrability of Cement-Based Grout Measured with Filter Pump and Penetrability Meter in the Field 404
Almir Draganović and Ali Nejad Ghafar

Utilizing Direct-Push Crosshole Seismic Testing to Verify the Effectiveness of Shallow Ground Improvements: A Case Study Involving Low-Mobility Grout Columns in Christchurch, New Zealand 415
Sungmoon Hwang, Julia N. Roberts, Kenneth H. Stokoe, Brady R. Cox, Sjoerd van Ballegooy, and Chris Soutar
