Descriptors: iron- and steel products, cold formed products, metal plates, tinplate, blackplate, manufacturing, mechanical properties, tests, hardness tests, packages, designation, marking, tin coating, volumetric analysis, definitions, dimensions, thickness, dimensional tolerances.

Price based on 15 pages

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been authorized has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 1111/2 was developed by Technical Committee ISO/TC 17, *Steel*, and was circulated to the member bodies in October 1982.

It has been approved by the member bodies of the following countries:

Australia	Hungary	Norway
Austria	India	Poland
Belgium	Iran	Romania
Bulgaria	Italy	South Africa, Rep. of
Canada	Japan	Spain
China	Kenya	Sweden
Czechoslovakia	Korea, Dem. P. Rep. of	Tanzania
Egypt, Arab Rep. of	Korea, Rep. of	Turkey
France	Mexico	United Kingdom
Germany, F.R.	Netherlands	USSR

No member body expressed disapproval of the document.

This second edition cancels and replaces the first edition (i.e. ISO 1111/2-1976).
