ISO/IEC 4335

Fifth edition
1993-12-15

AMENDMENT 7
1995-11-15

Information technology — Telecommunications and information exchange between systems — High-level data link control (HDLC) procedures — Elements of procedures

AMENDMENT 7: Enhanced multi-selective reject option

Technologies de l'information — Télécommunications et échange d'information entre systèmes — Procédures de commande de liaison de données à haut niveau (HDLC) — Éléments de procédures

AMENDEMENT 7: Option de rejet à choix multiples améliorée

Reference number
ISO/IEC 4335:1993/Amd.7:1995(E)

Foreword

ISO (the International Organization for Standardization) and IEC (the International Electrotechnical Commission) form the specialized system for worldwide standardization. National bodies that are members of ISO or IEC participate in the development of International Standards through technical committees established by the respective organization to deal with particular fields of technical activity. ISO and IEC technical committees collaborate in fields of mutual interest. Other international organizations, governmental and non-governmental, in liaison with ISO and IEC, also take part in the work.

In the field of information technology, ISO and IEC have established a joint technical committee, ISO/IEC JTC 1. Draft International Standards adopted by the joint technical committee are circulated to national bodies for voting. Publication as an International Standard requires approval by at least 75 % of the national bodies casting a vote.

Amendment 7 to International Standard ISO/IEC 4335:1993 was prepared by Joint Technical Committee ISO/IEC JTC 1, *Information technology*, Subcommittee SC 6, *Telecommunications and information exchange between systems.*

Introduction

This amendment to ISO/IEC 4335:1993 further extends the multi-selective reject option by including a streamlined and detailed set of procedures that do not generate duplicate retransmissions and allow the maximum number of outstanding frames to be less than or equal to modulus number minus one.
