INTERNATIONAL STANDARD

ISO/IEC 8823-1

Second edition
1994-12-15

AMENDMENT 2
1998-12-15

Information technology — Open Systems Interconnection — Connection-oriented presentation protocol: Protocol specification

AMENDMENT 2: Nested connections functional unit

Technologies de l'information — Interconnexion de systèmes ouverts (OSI) — Protocole de présentation en mode connexion: Spécification du protocole

AMENDEMENT 2: Unité fonctionnelle de connexions nichée

Reference number
ISO/IEC 8823-1:1994/Amd.2:1998(E)

Foreword

ISO (the International Organization for Standardization) and IEC (the International Electrotechnical Commission) form the specialized system for worldwide standardization. National bodies that are members of ISO or IEC participate in the development of International Standards through technical committees established by the respective organization to deal with particular fields of technical activity. ISO and IEC technical committees collaborate in fields of mutual interest. Other international organizations, governmental and non-governmental, in liaison with ISO and IEC, also take part in the work.

In the field of information technology, ISO and IEC have established a joint technical committee, ISO/IEC JTC 1. Draft International Standards adopted by the joint technical committee are circulated to national bodies for voting. Publication as an International Standard requires approval by at least 75 % of the national bodies casting a vote.

Amendment 2 to ISO/IEC 8823-1:1994 was prepared by ITU-T (as ITU-T Rec. X.226/Amd.2) and was adopted under a special "fast-track procedure", by Joint Technical Committee ISO/IEC JTC 1, *Information technology*, in parallel with its approval by national bodies of ISO and IEC. The identical text is published as ITU-T Rec. X.226/Amd.2.
