FOREWARD

This report, prepared by RTCA Special Committee 61, was accepted by the Executive Committee of the Radio Technical Commission for Aeronautics under date of October 12, 1954. It thereby becomes an official Ppaer of RTCA and is distributed as such.

The RTCA is a cooperative association of all United States Government-Industry aeronautical telecommunication agencies. It conducts studies of aeronautical telecommunication problems and related matters. Its objective is the resolution of such problems by mutual agreement of its member agencies. Its findings are in the nature of recommendations to all United States organizations concerned.

The RTCA is not an official agency of the United States Government. Its recommendations, therefore, may not be regarded as statements of official government policy unless so enunciated by the government agency, or agencies, having statutory jurisdiction in the matters to which the recommendations relate.

NOTE

Copies of this Paper may be obtained from the

RTCA Secretariat
Suite 655
